

Euro-Biolmaging Access proposal form

Overview of the form questions, from 5th June 2024. The form may change at any time without notice. For up-to-date information and proposal submission, please log in to the Euro-Biolmaging Access Portal (<https://www.eurobioimaging-access.eu/login>) and click “Access technologies”.

Questions marked with (*) are compulsory

Research project Title (*)

Are you submitting this proposal on behalf of someone else?(*) - Yes/No

Are you representing a private company or industry user? (If yes, you can write the words "industry user" in the fields where you do not wish to disclose details) (*) - Yes/No

Name of your principal investigator(PI) or supervisor (*)

Email address of the principal investigator or supervisor (*)

Brief description of the project and proposed work to be conducted at the Euro-Biolmaging facility (*) – max 5000 characters

Are there biological hazards associated with the project? (*) – max 2000 characters

Has your project already undergone an external review, e.g. as part of a funding proposal or by a local committee at the Node? If yes, please provide details like funder, grant number, and outcome of the evaluation. (*) – max 5000 characters

List of additional resources that may be required at the facility (select multiple if needed) (*) – dropdown menu

Expertise level in using the selected technology(ies) (*) – dropdown menu

Have you already communicated with the selected Node(s)? If yes, please include the name of the person you have been in contact with. (*) – max 1700 characters

How did you learn about Euro-Biolmaging? (select multiple if needed) (*) – dropdown menu

Additional comments or remarks (*) – max 5000 characters

If your proposal is for trans-national access, and you are either affiliated to an Italian institute, or requesting access to an Italian Node, you may be eligible for a grant to partially cover your costs (check eligibility criteria). Do you wish to apply for the grant? (*) - Yes/No

If your proposal is related to research on Infectious Diseases, do you wish to apply for funding from the ISIDORé project? Yes/No

If yes: Please provide your ISIDORé project ID (ISID_XXXX).

(Please note that if you wish to apply for ISIDORé funding, you first need to submit a pre-application through ISIDORé webportal. Please visit the TNA Call of relevance and follow the

instructions). After that, you will receive an e-mail with an ISIDORe project ID number (ISID_XXXX.), which you need to provide here. More information here. Please note that your Euro-Biolmaging proposal will be shared also with ISIDORe coordination.)

Questions below are for situations where the project has not undergone any previous evaluations or where you wish to receive scientific advice or apply for the Access Fund:

Please provide a short CV – max 2000 characters

Scientific background of the project. For Image Data Analysis services, include key aspects of image data (imaging modality, size, dimensions, etc.) – max 5000 characters

Please describe the planned imaging experiments (for Image Data Analysis services, the analysis requirements) and how they address the scientific question– max 5000 characters

Expected results – max 5000 characters

Importance of the project for your overall research – max 5000 characters

External reviewers you would like to exclude – max 1700 characters

If your project involves any ethical issue (e.g. it involves the use of animals, samples of human origin, personal data, etc), please shortly describe how the planned experiments will comply with relevant guidelines and regulations, including information on the institutional and/or licensing committee which approved or will approve the experiments, and any other relevant details. If not relevant, please insert NA — max 5000 characters

If you are applying for funding via ISIDORe, please provide an estimate of the costs you are incurring for the access to services at the Euro-Biolmaging Node(s). Please also specify what these costs refer to (e.g. prospective instrument usage duration, consumables, animals handling, sample shipment costs etc). If you have not been in contact with the Node or if you don't know which Node would better fit your project, please contact us to get support for the cost estimation.

If you are applying for funding via ISIDORe, please also provide an estimate of the travel/ lodging costs you expect to incur for visiting the Euro-Biolmaging Node(s), specifying what these costs refer to (travel or lodging), as well as some information about your expected number and duration of visits.
